Old Dominion University
Norfolk, VA

Master of Science: Computer Science

KMIT
Hyderabad, India

Bachelor of Technology: Computer Science

WORK AUTHORIZATION

F-1 OPT | Eligible for STEM Extension |
Open To Contract, Full-Time, and Hybrid Roles

TECHNICAL EXPERIENCE

Old Dominion University - Graduate Research Assistant
Norfolk, VA, USA *08/2023 - 05/2025*

- Designed and executed test cases for academic and research software projects
- Performed SQL-based backend data validation and integrity checks
- Supported application testing, troubleshooting, and defect resolution
- Assisted faculty with system validation, reporting accuracy, and data consistency

Accenture - Quality Engineering Analyst
Hyderabad, India *12/2020 - 08/2023*

- Executed manual, regression, smoke, and UAT testing for healthcare web applications
- Automated UI and backend test cases using Selenium WebDriver with Java and TestNG
- Performed SQL data validation to ensure backend data accuracy and integrity
- Logged, tracked, and managed defects using Jira, collaborating with development teams
- Supported production deployments and conducted post-release validation
- Supported Cigna & Anthem healthcare client applications
- Automated 100+ test cases, reducing manual regression effort
- Supported multiple production releases with post-deployment validation

Accenture - Application Development Associate
Hyderabad, India *12/2019 - 11/2020*

- Supported application development and functional testing using Java and SQL
- Assisted QA teams with integration testing and defect resolution
- Participated in Agile ceremonies, including daily stand-ups and sprint reviews

PROJECTS

QA Automation Framework (Personal Project): Built a Selenium automation framework using Java, TestNG, and Maven, implemented Page Object Model (POM) for maintainable automation, and managed automation code using GitHub.

TARGET ROLES

- QA Analyst
- Application Support Engineer
- Production Support Analyst
